No major comments.

What are Zone 1 or Zone 8 on the maps? These should be defined.

I assume the plan to monitor at schools is not affected by this... they still plan to monitor at schools even beyond the 1-mile radius?

Please review the attached data summary that details the request to reduce the air monitoring area from the 4-mile radius to a 1-mile radius around the facility. I would like for us to discuss this later today if possible. CTEH is available for discussions if necessary. Thanks!

All,

Attached please find the data summary report to support the Unified Command (UC)-approved reduction of real-time air monitoring and analytical air sampling throughout the extended community and focus air monitoring and sampling efforts within the 1-mile radius of the TPC Group facility. The last exceedance of the UC-approved 1,3-butadiene action level outside of the 1-mile radius from the incident was observed on December 6, 2019 prior to 03:00 CST. Please let me know how I can assist with moving this forward.

Regards,

Shawn
